

Friends of Fox Valley/Batavia Robotics

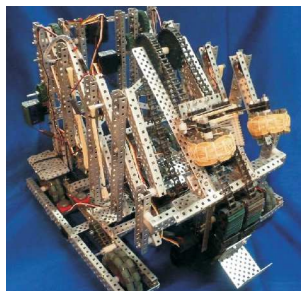

Since our inception as Batavia Robotics in 2002, Fox Valley/Batavia Robotics continues to expand and to support robotics for Fox Valley area students. Our programs are under the guidelines of both FIRST (For Inspiration and Recognition of Science and Technology) and RECF (Robotics Education & Competition Foundation) non-profit organizations as well as the ongoing educational initiative STEM (Science, Technology, Engineering and Math).

Our students participate in three divisions:

- LegoWolves are 1th to 3rd graders in FIRST LEGO League Explore (FLL Explore)
- LegoDogs are 4th to 8th graders in FIRST LEGO League Challenge (FLL Challenge)
- Coyotes are 8th to 12th graders in FIRST Tech Challenge (FTC) and VEX Robotics

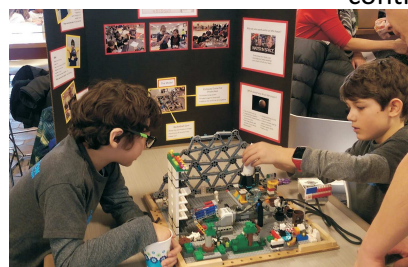

LegoDogs Robot

Coyotes Robot

The 2023-2024 season consists of 10 LegoWolves teams, 18 LegoDogs teams, 1 FTC and 11 VEX Coyotes teams. Fox Valley Robotics will host nine events: FLL Challenge Qualifier on 12/17/2023 and back-to-back Sectionals on January 27 & 28, VEX Qualifiers on 11/19/2023, 1/7, 2/25, 3/9 and VEX Skills with 60 teams attending on 3/10, and an FLL Explore Festival on 3/17.

Towards the end of the season, 12 LegoDogs teams qualified for Sectionals and then 9 for the State Championship where team Cosmic LEGO F.O.R.C.E. won the Engineering Excellence Award and will attend the May Western Edge Open in Long Beach. FTC team Unknown Element attended State. All 11 VEX teams qualified for State and 7 will continue to VEX Worlds in April in Dallas.

LegoWolves Model and Poster

We are currently raising funds for registration fees, robot parts and tools. Also, consider a gift of time by judging at one of our events or mentoring for one of our divisions. Any help you can provide will be greatly appreciated.

For 501c3 tax deductible contributions, make checks payable to "Batavia Foundation for Educational Excellence" or BFEE and write FVR/BR in the memo field.

Mail lower form with check to:
